- Booth infrastructure takes approximately 2 inches of space, thereby prohibiting filling the entire 15' back wall with cases or tables. Equipment along the back wall may only use 14'8" of space, therefore three 5' trophy cases will not fit along the back wall. Nothing may be tied to the booth structure frames.
- Once onsite, any booth changes (such as removal of walls not requested prior to the Fair) or moving of equipment within your booth (after your booth is set per your booth diagram) will incur additional labor charges of \$120.00.
- Please be aware that there are NO refunds for equipment ordered and delivered to your booth if you
  decide onsite that you no longer wish to have it.
